Faculty of Agricultural Sciences

Winter wheat yields in Denmark

Development in national yields

Data sources

- Long-term experiments (fertiliser trials)
- Variety trials (data from several sites since 1946)
- Field trials on farmers fields since 1990

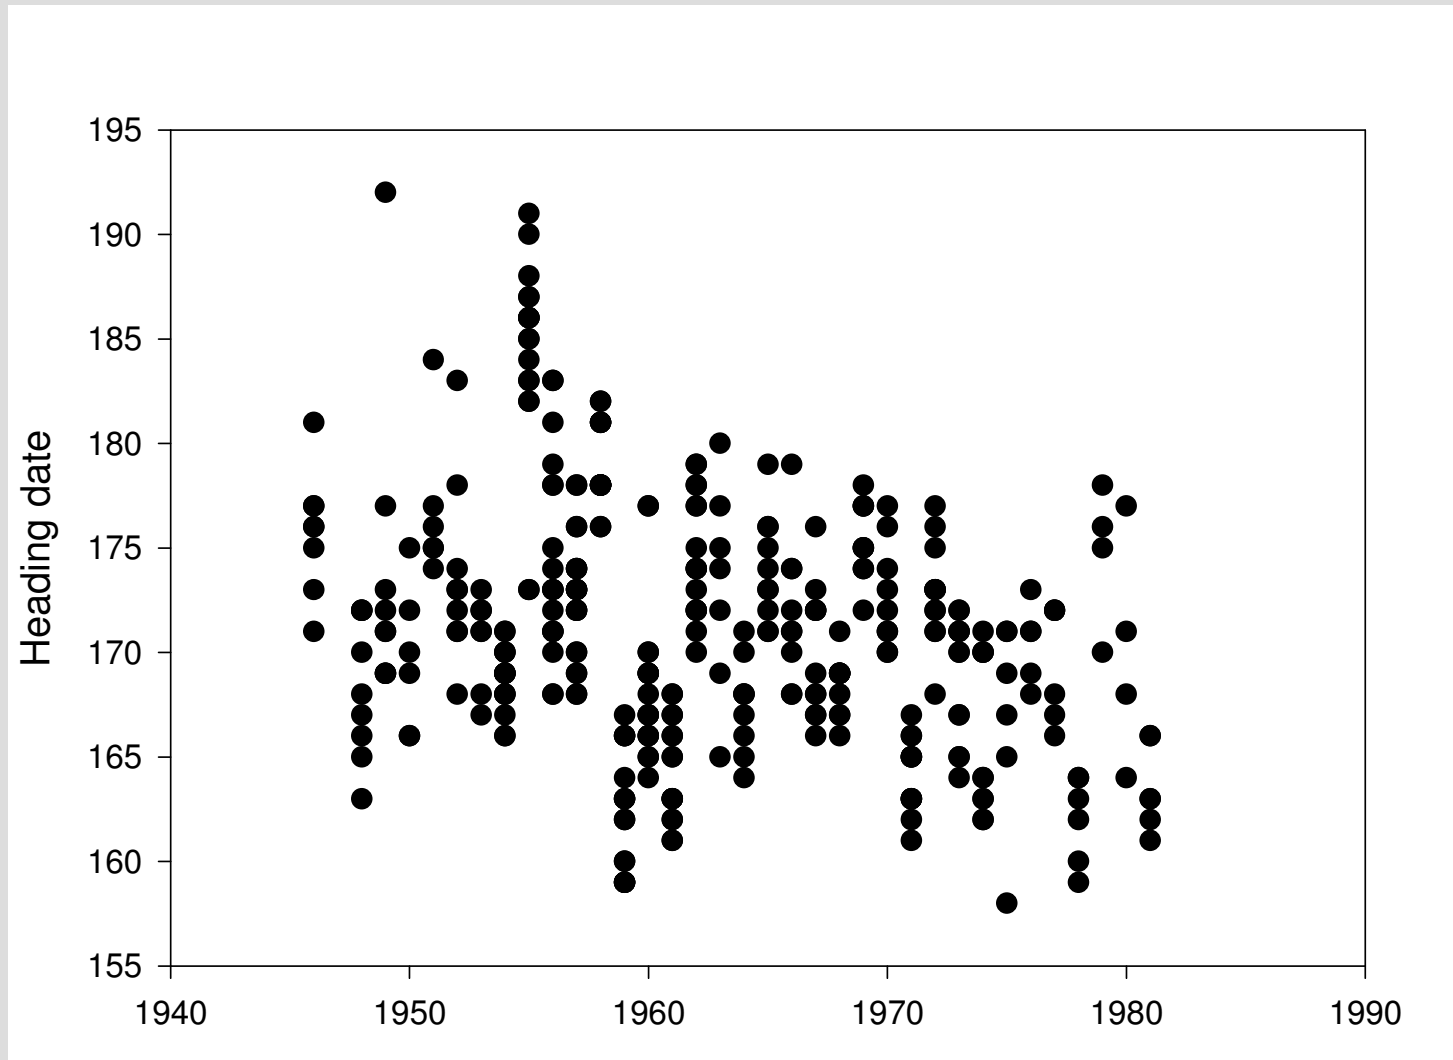

Variables available

- Grain yield
- Crop management
- Some phenological dates (e.g. date of heading)

- Daily climate data (temperature, precipitation, solar radiation etc.)

Winter wheat (variety trials) – date of heading

Winter wheat (variety trials) – grain yield
